"Greater Bay Area - Starting Line to a Bright Future"

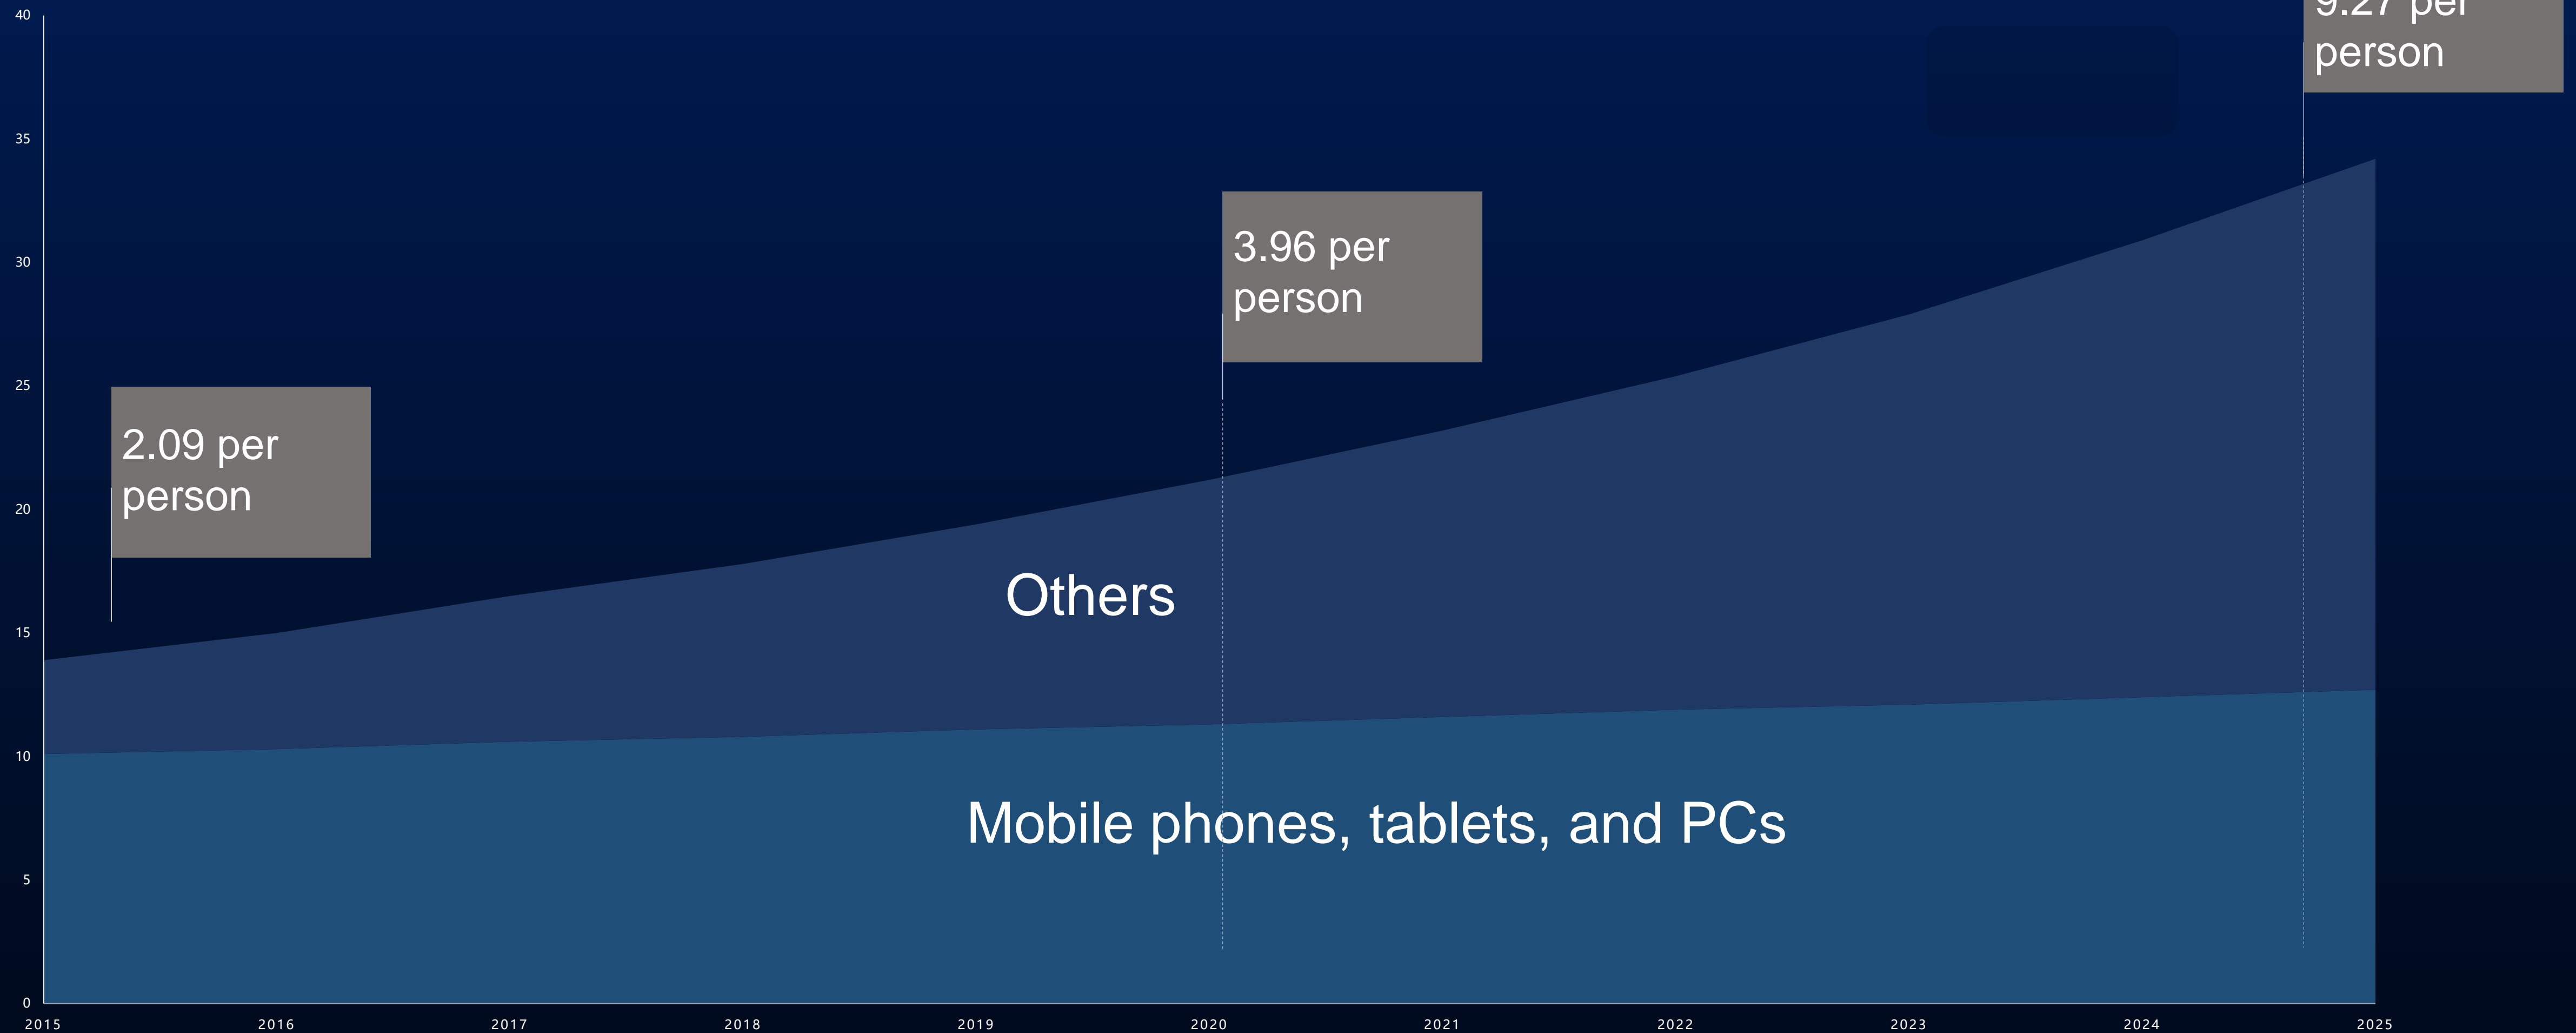

Clement Fong

Dec 14, 2021

- Challenges of the Existing OS
- HarmonyOS Brief Introduction
- User Experience

All-Scenario Experience Is Key to Winning the Future

Global IoT Device Statistics and Predictions (100 million devices)

What OS Can Meet the Requirements?

From a single device to all scenarios

Future-oriented OS

From separation to collaboration

From an isolated to a shared ecosystem

- Challenges of the Existing OS
- HarmonyOS Brief Introduction
- User Experience

HarmonyOS Overview

What Is HarmonyOS

4 Key Technology Breakthroughs

HarmonyOS

A microkernel-based, distributed OS
for seamless AI life

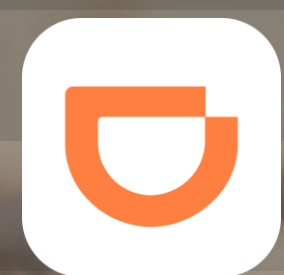

Decoupled OS and hardware

Sharing capabilities between devices

Smooth and low latency

Develop once across devices

- Challenges of the Existing OS
- Brief Introduction
- User Experience

(Collaborative car hailing)

Easy travel experience

Hail a ride on your phone, view notification on your wearable

HarmonyOS × Cocos : Distributed games

视频演示

Education Programs - "Greater Bay Area - Starting Line to a Bright Future"

HKT Education全力支援學校 推行「中學IT創新實驗室」計劃

政府現推行「中學IT創新實驗室」計劃，在2020/21至2022/23這三個學年，向每所公帑資助中學提供最多100萬元的資助，以提升校內資訊科技設備和設施，以及舉辦與資訊科技相關的課外活動。

作為科技教育的先驅，HKT Education一直致力將最新科技與知識引入學界，提供了一系列不同的創新科技學習方案。

方案1：
3年計劃；包含網上/面授課程，
以及資訊科技設備

學校可自由選擇以下其中3個單元

方案2：
1年計劃；包含網上/面授課程，
以及資訊科技設備

學校可自由選擇以下其中1個單元

單元	課程	資訊科技設備 (必須)	資訊科技設備 (非必須，可自行選擇)
單元1	AI Bootcamp (提供錄影帶/網上直播課程)	—	Matepad
單元2	AI Bilingual (提供網上/面授課程)	Halcode Webcam AI Bilingual license	Matebook
單元3	Coding AI (提供網上/面授課程)	Webcam Coding AI license	Matebook
單元4	IoT x AI (只提供面授課程)	IoT + STEM Equipment package*	—
單元5	AI App Builder (只提供面授課程)	Software License Matepad	Matebook/ Smartphone
單元6	Swift Basic/Advance (提供網上/面授課程)	Matepad Matebook	—
單元7	Drone (只提供面授課程)	Drone	—
單元8	VR Game Production (只提供面授課程)	Cardboard Pro VR viewer Mobile CoSpaces license	—
單元9	AR Game Design (只提供面授課程)	Matepad CoSpaces license	—

Course outline:

- AI Bootcamp
- Coding AI
- AI App Builder

Complexity:

- Elementary - Medium

Target Level:

- P4-S3

No. Student:

- 15~30 students.

Duration

- 4~20hours

Connect with Huawei

- Devices
- Harmony OS
- HMS Core

3Education積極推動智慧校園，致力提供各種5G智慧校園應用方案，以配合學校需求。

一站式學校支援

「奇趣IT識多啲」計劃或
其他資助計劃

VR虛擬實境製作課程

課程目標：STEM x 樂齡科技 VR製作技巧，完成課程後，學生可以設計出不同類型的VR應用軟件和遊戲。

課程大綱

1. 了解VR虛擬實境操作
2. 了解VR應用軟件的功能
3. 學習設計3D模型
4. 利用所學的知識，製作動畫

重點學習：設計VR 3D 模型

- ◆ 基礎編程及動畫製作
- ◆ 設計VR格式
- ◆ 控制不同3D物件的流程
- ◆ 對物件加入指令
- ◆ 加入畫面控制及聲音輸入

適合年級：
小四至中六
課程時數：
1- 1.5小時 X 10節課

提供初階及進階課程，適合高小至高中學生

STEM x 樂齡科技

產品體驗
STEM教育課程以智能拐杖「STICKu」為教學基礎，讓學生親身體驗樂齡科技為長者所帶來的好處

體驗與理解
• 體驗樂齡科技如何幫助長者
• 站在使用者角度思考
• 建立同理心，學習設計思維
• 體現對長者的關懷和同理心

學習
• 透過「優杖」了解如應用科技於日常生活
• 學習編程，訓練邏輯思維
• 探索與體驗不同科技，嘗試創新的組合應用
• 透過HarmonyOS的特性，思考科技如何融入日常生活

啟發思考
• 延續設計思維：定義問題，構思解決方案
• 訓練創意思維，以新科技解決新問題

Course outline:

- VR design and production
- STEM

Complexity:

- Elementary - Medium

Target Level:

- P4-S6

No. of Student:

- 20 students

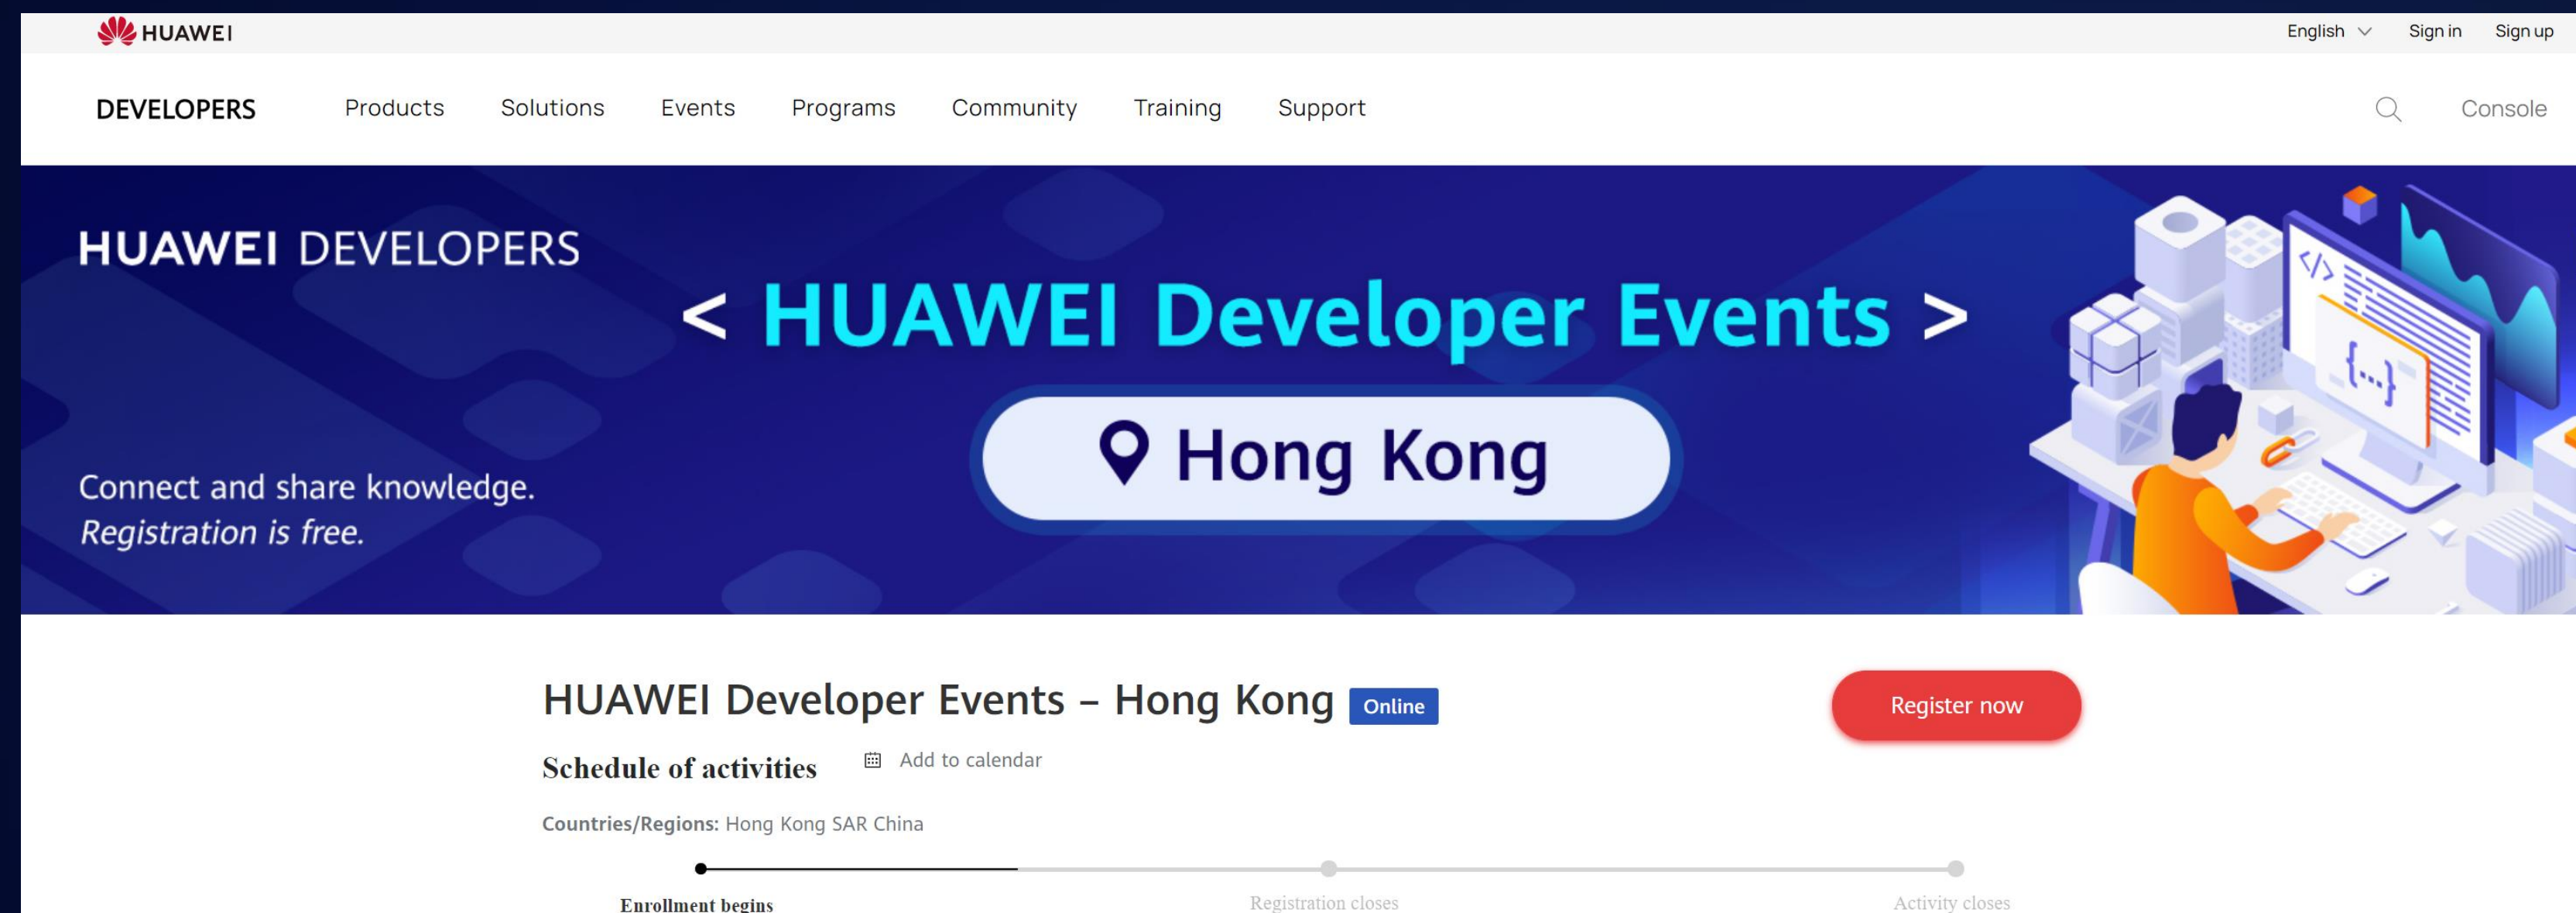

Duration

- 27 hours

Connect with Huawei

- Devices
- Harmony OS
- HMS Core

Huawei Developer Events

The screenshot shows the Huawei Developer Events page for Hong Kong. The page features a navigation bar with links for DEVELOPERS, Products, Solutions, Events, Programs, Community, Training, and Support. The main header includes the text "HUAWEI DEVELOPERS" and "HUAWEI Developer Events" with a location filter for "Hong Kong". A prominent red "Register now" button is visible. Below the button, there is a "Schedule of activities" section with an "Add to calendar" option and a timeline showing "Enrollment begins", "Registration closes", and "Activity closes".
